

nLighten edge data center

Amsterdam I.

AMS1

Amsterdam is the capital and vibrant centre of the Netherlands. The city is known for its artistic heritage, an extensive canal system (“Grachten”) and narrow houses with gabled facades that date back to the city’s Golden Age in the 17th century. In the eastern part of the city is the Amsterdam Science Park and Startup Village, an important centre for information technology, life sciences, chemistry and advanced technology. Amsterdam is also an important international internet hub. nLighten’s presence in Amsterdam offers exceptional data centre services that meet the needs of businesses and strengthen the city’s position as a technology and innovation hub.

nLighten Amsterdam I.
Gyroscopeweg 134–140
1042 AZ Amsterdam

Location specifics.

The data centre is conveniently located west of Amsterdam’s city centre, just off the major A5 motorway and the A10 ring road and only 20 minutes by car from Amsterdam Schiphol Airport. The data centre has an area of 2,237 m², a capacity of 1,100 kW, an office area and a large car park.

Like the other nLighten facilities, the Amsterdam location enables our customers to benefit from a well-connected, high-availability data center and capable of housing high-density cabinets. The data center comes with a wide range of on-site services and a growing ecosystem of partners, all there to optimally support our customers’ IT environment.

Highlights.

2,237 m²
of edge data center space

1,100 kW
proposed end-state
site capacity

Sustainability:
Commitment to a net-zero
carbon footprint

Compliance:
ISO27001 in all locations

Edge data center Amsterdam I Features.
